**SHANNON
DEVELOPMENT**

E-Towns™

The Live/Work Economic Development Solution

Wednesday, 15th November 2006

SHANNON DEVELOPMENT is presenting the 1st National Conference on a unique economic development solution for smaller communities.

Miltown Malbay, County Clare, has been selected as the demonstrator location for the first E-Towns Project. At its core is an architecturally designed, mixed use, residential and business complex specifically designed to enable people to both Live and Work from their own home.

The Conference will look at the Miltown Malbay experience and the best way that Live/Work development can help to disperse economic activity and job creation to smaller population centres, create new vibrant business clusters and offer an improved quality of life.

**Burkes Armada Hotel,
Spanish Point, Miltown Malbay,
Co. Clare
